

## **About Me**

Hello! I am number 3. I have 2 sisters and no brothers. One of my favorite subjects in school is math. My mom and dad are from the Philippines, so I am Filipino too. I like visiting my cousins all over the U.S.A. I usually visit my cousins in New Jersey. Since I have a lot of cousins, we travel a lot.

Two of my favorite sports are swimming and softball. I love playing outside and playing on the computer. I also like drawing pictures and playing with my friends. I like going to school and learn so I can be smarter. My favorite books are My Sister the Vampire and Suddenly Supernatural.

In the summer, we sometimes go to the beach. I first play in the sand with my sisters. After a while, I like to go in the water. Sometimes my mom buys us ice cream. When it is time to leave I am shivering. One time we saw little fish swimming.

I like to help my dad take care of the garden and yard. He usually plants tomatoes, carrots, and many different kinds of vegetables. Sometimes he lets me drive the lawn mower, but he watches me. We also like nature walks. We have a path that leads us into the woods. It is connected to a place where my dad cuts wood.

Thank you for reading about me!
